Amendments to the Specification:

Please replace the paragraph starting on p. 18, line 20 with the following amended paragraph:

Depending upon how the transmission resources are assigned, and on how the duplexers are configured, the arrangement of Figure 6A can be employed in many different ways. For example, in some embodiments, relays are employed which are capable of switching the roles of the transmit and receive bands. An example of such a relay is described in Applicants' copending application No. 10/736,699 ~~<Attorney docket 71493-1220>~~ entitled "Method and Apparatus of Fixed Relay Multiplex and Duplexer" filed December 17, 2003, hereby incorporated by reference in its entirety. A specific set of examples will now be described with further reference to Figure 6A, and with reference to Figures 6B through 6I. ~~For example, in some embodiments,~~
